## Our Company

Shenzhen Metal Industries Limited is a leading export-oriented garments accessories manufacturing company in Bangladesh with Oeko-Tex certification for product Class-1 Appendix-6 specializing in lead-free, nickel-free, rust-free, ferrous-free copper, alloy-based metal buttons, and metal zippers. With over 20 years of experience, Shenzhen Metal continues to provide its clients with the most affordable price, superior quality, and quick delivery. Our comprehensive metal button production line covers a broad space of 40,000 sq. ft. and can produce 17,16,000 GRS of metal buttons and 364,000 Dzn of metal zippers per month, regularly working for 16 hours. We take great pride in our devotion to quality and professional production management.

Our company specializes in manufacturing export-quality garments-accessories. We have a team of experienced and skilled workers dedicated to providing quality products and services to our clients. We use the latest technology and equipment to produce our products, and we have a strict quality control system to ensure that all our products meet the highest standards. We also offer custom solutions to meet our client's specific needs.

## Message from MANAGING DIRECTOR

The most important factors in determining a product's quality are its accessories. Therefore, although making up a small portion of product costs, apparel accessories have the most significant position in production economics. In Bangladesh, export revenue from the apparel industry is over 80%.

Modern, diligent, and inventive manufacturing company Shenzhen Metal Industries Ltd. has production facilities for the newest high-tech accessories in South Boraibari, Kashimpur, and Gazipur Sadar, Gazipur. The organisation maintains high standards of quality and can guarantee highly professional service to fulfil the customer's desire to meet the growing demand of Retailers, Buying Houses, and Factories. We are confident with our most refined quality product, and we look forward to serving you with the best possible products and services.

# Mission & Vision

## ► MISSION

Our company manufactures metal buttons and zippers for various apparel and other products. We are dedicated to providing high-quality products that meet the specific needs of our customers. We strive to create long-term relationships with our clients by providing exceptional customer service and delivering quality products on time and at a fair price.

We pledge to uphold our responsibilities, including

1. Building and maintaining friendly connections with our customers
2. Producing clothing and accessories that constantly adhere to global industry standards.
3. Delivering shipments following the timeline and other requirements of the customer's request.

## ► VISION

The vision of Shenzhen Metal Industries Limited Bangladesh is to be the leading manufacturer of high-quality buttons and zippers in the country. The company will strive to provide the best products and services to its customers and will always be innovating to stay ahead of the competition. The company will also aim to create a positive impact on the communities it operates in and will always be a responsible corporate citizen.

# Quality Management

Quality Assurance is the process or set of processes used to measure and assure the quality of a product, and quality control is the process of ensuring products and services meet consumer expectations.

Our products undergo four critical processes during production to ensure good quality with 100% client satisfaction:

**IQC:** Stringent incoming quality control consisting of an inspection of raw and Component materials.

**IPQC:** Process inspection on the production line.

**FQC:** Final quality control, including a functional test on all features in the Control.

**OQC:** Outgoing quality control consisting of inspection before delivery.

Also, at Shenzhen Metal, we follow the test method BS-308 standard for quality assurance, and all other quality assurance standards are illustrated below,

For Quality Assurance we follow the test method BS-308 standard for

- ❑ Pre-Production Test.
- ❑ Running Production Test
- ❑ Bulk Production Test

Quality assurance procedures for Metal Buttons are as followed;

- ❑ Zipper assembling Test
- ❑ Lettering Test
- ❑ Pull Test
- ❑ Lock Test.
- ❑ Torque Test

# Certification

OEKO-TEX® STANDARD 100 is one of the world's best-known labels for textiles tested for harmful substances. It stands for customer confidence and high product safety. Our Metal accessories (including metal button, snap fastener, rivet, eyelet, hook & eye, buckle, D-ring, stopper/cord ends) made of brass, zinc alloy, and aluminum, with surface finishing in antique brass, dull silver, antique silver, nickel, antique pewter, and antique copper, with or without lacquer; including painted button (dyed-to-match) and Metal zipper with closed or open-end (assembled) are OEKO-TEX Standard 100 certified.

# Production Machinery

We have a diverse range of up-to-date machinery, including molding development machinery, metal button machinery, metal alloy button machinery, metal zipper machinery, and testing and laboratory facilities. Our comprehensive factory space is 3,64,500 sq ft, and the production floor is 50,000 sq ft, including the metal button production line covering a broad space of 40,000 sq ft and can produce 17,16,000 GRS of metal buttons and 3,64,00 Dzn of metal zippers per month regularly working for 16 hours.
